4.465

Method: 1. Place all Group 1 ingredients in machine bowl fitted with a dough hook.

- 2. Mix for 2 minutes on first speed then for 6 minutes on second speed.
 - 3. Prepare a slurry by combining Group 2 ingredients.
 - 4. Blend in over 2 minutes on second speed.
 - 5. Allow dough to recover for 10 minutes.
 - 6. EITHER
 - 7. Divide into 100g (large) or 50g (small) pieces.
 - 8. Pin out rounded up dough to form a circle with a thickness of 3mm.
 - 9. OR
 - 10. Roll out on brake to 3mm thickness and cut into shapes as desired.
 - 11. Place filling on one half of shape, then fold over to form an envelope.
 - 12. Cover dough pieces.
 - 13. Rest for 20 minutes.
 - 14. Brush with Olive Oil.
 - 15. Bake for 12-15 minutes at 210°C-220°C (410°F-428°F).
 - 16. Brush again with Olive Oil immediately after removing from oven.
 - 17. Serve either hot or cold.
 - 18. Refer to R104J for filling.

Notes: The metric recipe is of similar size to the avoirdupois recipe but is not an exact conversion.

Yield: 59 at 100g (large) or 118 at 50g (small)
